# Interactive group work, Session B1

- **Interactive group work** on the need for improvements, expansions and contextualisation in the next generation of SUMP Guidelines
- About **1 hour**, 8 circles of chairs
- **Brainstorming followed by common discussions** on three guiding questions. Results collected on sticky notes and flipcharts.
- **Discussion questions:**
  1. What has **worked well** in the SUMP Guidelines?
  2. Which aspects of the SUMP Guidelines **have not worked well**?
  3. What kind of additional guidance or **improvements are needed?** (on SUMP steps, measures and policy tools, policy goals, planning contexts, good practices...)
- Flashlight **summaries** at the end of the session

# Thank you!
