# Sustainable Urban Mobility Plans

## SUMP Concept

- Annex 1 of Urban Mobility Package  
COM(2013) 913 final, Dec 2013

## SUMP Guidelines

- based on a systematic stakeholder consultation process, published in Dec 2013
- widely used in Europe and internationally

**A European success story!**

## Why do we need an update of the SUMP Guidelines?

- Wealth of **practical SUMP experience** available for transformation into good practice guidance.
- **Supplementary guiding material** originating from various national and EU funded SUMP projects.
- **New mobility developments** (emerging technologies, new policy challenges and opportunities) that require a rethinking and extension of the current SUMP guidelines.

## SUMP is a lively community... (some examples)

### ENCLOSE

adapt to  
new contexts

## What are our goals?

- **Support** consolidation of the **take-up** process of SUMP
- Address **emerging needs from cities and Member States** for further development of guidance
- Coordinate development of one comprehensive '**compendium of guidelines**' bearing the logo of the Commission (as owner of the process) and of the SUMP Platform
  - improve and update core **Guidelines**
  - expand to **new areas** of urban mobility
  - extend to **specific contexts** of application

## Who are "we"?

The **Coordinating Group** brings together representatives from relevant on-going EU-supported actions to:

- **Exchange** information and lessons learnt
- Identify and exploit **synergies**
- Agree on **common views** for the **further development of the SUMP Guidelines and tools**
- Assist in the **co-ordination** of outward presentation of the various initiatives
