## European Investment Bank loans and guarantees

The [European Investment Bank](#) (EIB) offers either direct loans and guarantees for large-scale projects (over €25 million) or intermediated loans and guarantees for small and medium-scale projects, in that case via national and regional intermediary banks.

**Cities should contact the EIB directly, or via their bank, depending on the size of their projects.**

For more information, visit the [EIB website](#), or read the [EIB's transport lending policy](#).
