## Horizon 2020 - 'Smart, Green and Integrated Transport'

### **Valid dates:**

26 Nov 2013 to 31 Dec 2020

Under [Horizon 2020](#) the EU Research Framework Programme, all projects require co-operation between a minimum of three countries.

The part called 'Mobility  for Growth' is the [CIVITAS Initiative](#), consisting of city-led demonstration projects, knowledge-generating projects and horizontal support projects.

The call for the city-led demo projects for 2017-20 was in 2015. The call for the horizontal support project for 2017-2020 was also in 2015.

For 2016 calls are open for knowledge-generating projects for:

- Facilitating public procurement
- New ways of supporting neighbourhood-level innovations

For 2017 calls will open in 2016 for knowledge-generating projects for:

- Increasing the take-up and scale-up of innovative solutions
- Supporting smart electric mobility
- Innovative approaches for integrating urban nodes

### **Cities should follow up the calls.**

For more information, visit the European Commission's [website section on Horizon 2020](#) and the page on [available funding opportunities](#).
