Urban mobility planning

Body:

The applications are open for the:

1. EUROPEANMOBILITYWEEK Awards 2021

2. 10th Sustainable Urban Mobility Planning (SUMP) Award
3. EU Urban Road Safety Award 2021

Applications for all awards must be submitted by **31 October 2021**.

EUROPEAN MOBILITY WEEK Awards 2021

The **EUROPEAN MOBILITY WEEK Awards** recognise local authorities that have excelled in raising awareness of sustainable mobility throughout **EUROPEAN MOBILITY WEEK** (16-22 September). The Awards are given in two categories: one for smaller municipalities with a population under 100,000 and one for larger municipalities with a population over 100,000. Cities that have fulfilled the following criteria, and have signed the Charter, are eligible to apply for the Awards:

1. They organised activities focused on sustainable mobility during the week;
2. Implemented one or more permanent measures; and
3. Held a Car-Free Day.

Please see the [call for applications](#) for detailed information about the application process and eligibility.

To apply click [here](#) and log in with the same credentials used to register your town or city for **EUROPEAN MOBILITY WEEK**.

10th SUMP Award

As part of **EUROPEAN MOBILITY WEEK**, the European Commission presents the annual European *SUMP Award* to a planning authority which demonstrates excellence in sustainable urban mobility planning. Celebrating the 10 year-anniversary of the SUMP award, the theme is "*Be safe and healthy with sustainable mobility*".

The aim of the SUMP Award is to encourage the adoption of Sustainable Urban Mobility Plans (SUMPs) by local authorities across Europe and to reward outstanding achievements in each year's thematic priority area. Acknowledging current challenges and shifts in urban planning, this year local authorities are encouraged to showcase their outstanding plan to create a safer and healthier mobility system while reigniting trust in public transportation services.

For more information see [here](#) and to apply click [here](#).

EU Urban Road Safety Award 2021

The *EU Urban Road Safety Award* highlights the contribution made by local authorities towards improving the safety of European roads.

It rewards outstanding and innovative achievements by local authorities in the area of road safety

and encourages the exchange of good practice across Europe.

Recognising the crucial role that towns and cities across Europe play in improving road safety, especially in light of the fact that 38% of road fatalities and more than 50% of serious road injuries occur on urban roads, the award rewards local authorities for adopting holistic measures to improve road safety, within the spirit of the internationally recognised '*Safe System*' concept.

For further information see [here](#) and to submit an application see [here](#).
