Please note that a number of key events have been postponed to a later date - or converted to online events in the light of the COVID-19 pandemic. Changes to events have been made in order to adhere to medical advice and to protect the populace.

The Eltis team will endeavour to keep the events pages updated with the most recent information but if in doubt, please check the events own web page to confirm whether the event is going ahead - or contact event organisers.

Thank you to the urban mobility community for your patience at this time.

Kind regards,

The Eltis Team.
