Body:

Mobility practitioners in towns and cities are invited to join a series of sustainable mobility study visits organised by the CIVITAS Initiative in 2020.

These will take place in Madrid (Spain), Szeged (Hungary), Vinnytsia (Ukraine), Bratislava (Slovakia) and Utrecht (the Netherlands). As hosts of sustainable urban mobility study visits in 2020, these cities are offering participants the chance to discover their latest mobility innovations and the projects they are implementing to create clean, green and liveable urban environments.

Participants can apply to join the study visits by filling in the applications found via the link at the bottom of this page. Completed application forms should then be sent to Arianna Americo - arianna.americo@eurocities.eu. For selected cities, travel costs of up to €600 will be covered. For more information on CIVITAS peer-exchange activities, click [here](#).
