# SUMP Award

## The European Sustainable Urban Mobility Planning (SUMP) Award

The European Sustainable Urban Mobility Planning (SUMP) Award recognises local authorities that have developed a Mobility Plan that satisfies the diverse transport needs of people and businesses, whilst improving quality of life.

The award scheme was launched in 2012. The first three editions of the SUMP Award have been organised within the European Commission's Sustainable Urban Mobility Campaign (known as "Do the right mix"). Since its 4th edition, the award is part of the European Mobility Week (EMW).

The SUMP Award is presented during a joint ceremony with the EMW Award in March/April each year.

## Thematic focus of the SUMP Award

The award highlights a different aspect of mobility planning in each edition:

- The 1st edition of the award opened in 2012 and recognised **stakeholder and citizen participation** in the SUMP process
- The 2nd SUMP Award edition looked at successful **territorial and policy integration**
- The 3rd SUMP Award recognised outstanding work regarding **monitoring and evaluation** of the SUMP
- The 4th SUMP Award focused on providing **multimodality and intermodality** in sustainable urban mobility planning.
- The 5th SUMP Award acknowledged the integration of **urban freight** in transport planning.
- The 6th SUMP Award focuses on **shared mobility** in sustainable urban mobility planning.
- The 7th SUMP Award will focus on **multimodality**, which has been declared theme of the year by the European Commission - DG MOVE.

# SUMP Award winners

## Previous Award winners and finalists are:

1st SUMP Award:

- Winner: **Aberdeen** (GB) (Eltis case study) (video)
- Finalists: **Ljutomer** (SI) (Eltis case study) (video) | **Toulouse** (FR) (video)
