[3rd International Conference on Smart Applications and Data Analysis for Smart Cities 2020](#)

Wednesday 25 March 2020 at 09:00 Thursday 26 March 2020 at 17:00

Marrakech,

Past event

Information / Description:

Please note that the conference scheduled to take place on 25 March 2020 has been postponed due to the COVID-19 pandemic. The event will now take place at a later date which is to be confirmed. Please visit the event [website](#) for the most up-to-date information.

The 3rd International Conference on Smart Applications and Data Analysis for Smart Cities 2020 (also known as SADASC'20) will bring together researchers and industry professionals in a collaborative smart cities discussion. The two day conference will include invited keynotes, oral presentations and opportunities for networking with smart city experts. The third SADASC conference will continue to address key issues and introduce innovative ideas concerning smart cities, as it has done in previous years.

In 2020, attendees can expect keynote speakers to discuss intelligent multistorey car parking models, 3D network analyses, predictive maintenance and more.

For more information, please visit the event [website](#).
