Information / Description:

Autonomy is a Business2Business/Business2Government platform that brings together all the players involved in sustainable and intelligent mobility. Innovators, startups and large groups use Autonomy every year to promote their solutions to transport operators, elected officials, cities, investors and the media.

At the heart of the new mobility ecosystem, Autonomy benefits from a unique positioning in the market. Sitting at the crossroads of new initiatives, innovation and different ways of thinking, Autonomy's place allows companies to exchange and network with professionals from different sectors who represent the mobility of tomorrow.

The 2021 programme includes an expo, industry talks, a demonstrations programme and a startup programme, all covering seven key sector topics:

- Active and micro-mobility
- Shared mobility
- MaaS - Ticketing and payments
- Smart city services
- Corporate mobility
- E-mobility and infrastructure
- Urban logistics

The event will take place online on **19-20 May 2021**.
