CIVITAS SUMP-UP Webinar: Measure selection for a SUMP

Wednesday 20 March 2019, 10:00 to 11:30
Past event

Information / Description:

Are you eager to learn about different measures that can help achieve the goals outlined in your city's Sustainable Urban Mobility Plan (SUMP)?

If so, join the third CIVITAS SUMP-UP webinar for mobility practitioners on 20 March, 10:00 - 11:30 CET!

Systematic and judicious SUMP measure selection and effectively combining these measures is central for SUMP development and implementation.

This webinar will highlight this crucial step of the SUMP process, showcasing a series of manuals produced by SUMP-UP that aid cities in measure selection and creating measure packages.

The manuals focus on three different city profiles, each of which covers a different level of experience and expertise in the development of mobility policies and measures.

In addition, Barna Ciprian, a mobility planner from Oradea metropolitan area, Romania, will share Oradea's experiences in the selection of different measures implemented within the SUMP framework.

The webinar will take place on 20 March, 10:00-11:30 CET.

Register and read the agenda below.
