Information / Description:

TAMING THE CAR!

Cities are recognising that their success and their citizens' well-being depend on reducing road traffic dominance and limiting the impacts of traffic congestion – CREATEing an inspiring, liveable and flourishing city, with easy access to the things that are important to people.

To hear about how this can be achieved, join us at a conference followed by a cocktail reception in the European Parliament, drawing on cutting edge sustainable mobility and liveability strategies from Western Europe and exploring their relevance to Eastern Europe and cities as far as the Middle East and Asia - in Amman and Adana.

You can find and download the **draft programme** here: <http://anyflip.com/zerr/jfpr/>
