[GAIT 2015, Seminar Turkish-EU Partnership for Sustainable Transportation](#)

Thursday 08 October 2015 at 09:30 Friday 09 October 2015 at 15:30

Istanbul,

Past event

Information / Description:

GAIT stands for 'green, accessible, intelligent transportation', referring to the pillars of the Transport Operational Programme (IPA 2014- 2020), financed by the EU pre-accession funds for Turkey.

The plenary and discussion sessions of the seminar will raise issues belonging to daily lives of Turkish and European citizens, varying from accessibility of transport services to the adaption and mitigation challenges posed by climate change on the transport sector.

The Seminar is organised under the Transport Operational Programme, financed by the EU pre-accession funds for Turkey. This programme assists Turkey for aligning its policies to the EU. The seminar, in this respect, will contribute to the integration of Turkey's transport policy to that of the European Union.
