## **ITS European Congress**

Monday 03 June 2019 at 09:00 Thursday 06 June 2019 at 17:00

Eindhoven,

Past event

### **Information / Description:**

One of the largest events entirely dedicated to smart mobility and digitalisation of transport is organised by ERTICO - ITS Europe.

The event will include:

- International Programme sessions and presentations with top speakers from the industry
- Demonstrations of the current transport technologies developed and deployed throughout the world
- Exhibition of cutting-edge companies

The programme offers the opportunity to learn about ITS technologies, as well as new mobility concepts. Meanwhile, demonstrations will provide the opportunity for attendees to witness new innovations and future ventures.

The Congresses display the host city's latest achievements in the field of intelligent mobility services, supporting the hosts in increasing the awareness of the importance of new solutions and investments in the host region and country.

During the Congress, ERTICO Partners, sponsors and exhibitors have the opportunity to arrange more focused events before, during and after the Congress, as well as having access to meeting rooms, lounge areas and hospitality rooms.
