[ITS European Congress 2020](#)

Monday 18 May 2020 at 09:00 Wednesday 20 May 2020 at 11:00
Lisbon,

Information / Description:

The ITS European Congress, the largest event entirely dedicated to smart mobility and digitalisation of transport, is organised by ERTICO - ITS Europe.

The ITS European Congress is part of a bigger cluster of ITS Congresses. It is organised in a European city in the years where there is no ITS World Congress in Europe. These events are a strategic opportunity for the transport industry to come together and show the latest innovations, with a slightly different focus for each year. The 14th ITS European Congress theme is: The Game Changer. The five key topics of 2020 are:

- Automated, cooperative and connected ITS
- New mobility services
- Freight and logistics
- Digitalisation and the data value chain
- Transport network design and operations

Each of these topics will be expressed through the three Congress pillars: Programme, Exhibition, Demonstrations.
