MAMBA Webinar: Setting the scene, exploring the challenge

Thursday 03 September 2020, 10:00 to 11:30

Information / Description:

The MAMBA project aims to promote sustainable “people-to-service” and “service-to-people” mobility solutions in rural areas. In practice, MAMBA partners collaborate to improve the integration of existing mobility structures with innovative mobility solutions like citizen buses, mobility as a service (MaaS) and ride sharing applications.

This will focus on setting the scene and exploring what the challenges surrounding rural mobility are. The webinar will feature presentations from relevant figures within the area of mobility, as well as the possibility to join smaller sessions, with the option of exchanging knowledge about a range of topics, including gender questions, transport poverty and more.

This webinar will be held on 3 September at 10:00 CET.

To register for the webinar, please click here.

This webinar is part of the project’s final webinar series “No future for rural Europe? Breaking the vicious circle with successful mobility and accessibility ideas”, which will present the results of the past three years, while also initiating a discussion about the different aspects of rural mobility across Europe, and discussing innovative solutions and successful mobility ideas. For information on each of the webinars being held on the 3, 10 and 17 September 2020, please visit the webinar series page.
