## **[Portugal Smart Cities Summit 2020](#)**

Tuesday 22 September 2020 at 10:00 Thursday 24 September 2020 at 19:00

Lisbon,

Past event

### **Information / Description:**

**Please note that this event originally scheduled to take place on 06 May 2020 has been postponed to 22-24 September 2020. Due to current COVID-19 concerns, those with an interest in attending should check the [event website](#) for the most up-to-date information.**

The 'Smart Cities' concept encompasses more than mobility, digital platforms or sustainability. The fundamental objective of a Smart City is to incorporate all these areas in order to improve the lives of citizens in the world. The Smart Cities Summit Portugal is an opportunity for national and international experts to share their ideas, experiences and challenges in developing a Smart City. It acts as a market place, creating opportunities for the international sphere.

Following on from the success of previous years, Smart Cities Summit Portugal 2020 will have a comprehensive programme which integrates all aspects associated with cities of the future, with an emphasis on Internationalisation. Over three days, guests will have the opportunity to learn about the most innovative ideas from around the world through exhibitors and guest speakers. Previous speakers have included academics from European universities and members of the EU Commission, CEiiA, and more.
