REVOLUTION Conference 2020

Tuesday 31 March 2020 at 08:00
Amsterdam,

Information / Description:

REVOLUTION Conference is the annual keynote and networking event focused on the future of (electric) Mobility.

Thousands of cleantech experts are joining forces to make mobility sustainable. Over the past three years, we gathered thought leaders, climate advocates, professionals, and students in Amsterdam to explore sustainable and profitable ways to create the future of mobility. A zero-emission world is not something we achieve alone. It’s something we have to—and will—achieve together.

Are you up for the challenge to accelerate the transition towards a zero-emission future?
