[Sharing Cities' Smart City Solutions Webinar: E-mobility](#)

Tuesday 20 October 2020, 11:00 to 12:30

Past event

Information / Description:

Eurocities are hosting a webinar series dedicated to presenting the smart cities measures that have been implemented in lighthouse cities of Lisbon, London and Milan as part of the Sharing Cities project.

This webinar on e-mobility will explore different schemes of electric vehicles sharing and the implementation of e-logistics. Then, some tools for replication, scale-up and implementation in other cities will be presented.

After the presentations, participants are invited to join the discussion, ask questions and share their experiences.

The webinar will take place on 20 October 2020 at 11:00 CEST.

For more information on this webinar and the rest of the series, please visit the [event website](#).
