## [Mobility Practitioners Webinar - Measure Selection for SUMP](#)

THE CIVITAS INITIATIVE  
IS CO-FINANCED BY THE  
EUROPEAN UNION

### **Topic:**

Urban mobility planning

Systematic and judicious SUMP measure selection and effectively combining these measures is central for SUMP development and implementation.

This webinar highlights this crucial step of the SUMP process, showcasing a series of manuals produced by SUMP-UP that aid cities in measure selection and creating measure packages.

The manuals focus on three different city profiles, each of which covers a different level of experience and expertise in the development of mobility policies and measures.
