Mobility Practitioners Webinar: Second Edition of the SUMP Guidelines

THE CIVITAS INITIATIVE
IS CO-FINANCED BY THE
EUROPEAN UNION

Topic:

Urban mobility planning

For the past six years, the SUMP Guidelines have acted as the main reference document for mobility practitioners and other stakeholders involved in the development and implementation of Sustainable Urban Mobility Plans. Whilst they continue to be widely used, extensive guidance materials and new mobility trends and concepts have emerged and a wealth of practical SUMP experience has been acquired since the introduction of the Guidelines in 2013. Therefore, the second edition of the EU SUMP guidelines was launched at the CIVITAS Forum 2019.

This webinar is an opportunity to learn about the fully updated SUMP cycle, with more detail on the measure planning, financing and implementation aspects, and over 60 new good practice examples from cities all around Europe.
