SIMPLA branding by promoscience

Harmonising SEAPs & SUMPs: it's SIMPLA

Planning sustainable energy & mobility together

SEAPs & SUMP

different perspectives, same goal

for smart, sustainable and inclusive cities

Sustainable Energy Action Plans

Sustainable Urban Mobility Plans

improve the city's image

contribute to the global fight against climate change

balanced development of all transport modes

accessibility for all users

political visibility

better health & quality of life

focus on vulnerable users

safety

promote sustainable urban development

economic & employment benefits

efficiency & savings

reduce polluting emissions

better environment

access to national/ European funding

networking & synergies

optimise use of urban areas

GUIDELINES

a practical, step-by-step tool to guide the harmonisation process

Developed by a transnational team of experts, the SIMPLA guidelines and their digital version (SIMPLA's online observatory) provide a full range of practical recommendations, templates, international case studies and easily replicable energy-saving packages.

The most motivated local authorities participating in training benefit from further coaching provided by highly qualified experts. SIMPLA's coaches help cities develop their harmonised plans and look for funds for their implementation.

COACHING

dedicated experts' support to develop harmonised plans

TRAINING

tailored in-class training and webinars to enhance strategic planning capacity

Officers from selected local authorities are offered practical in-class training on how to develop harmonised SEAPs and SUMP. Later on, international interactive webinars will broaden this learning opportunity to anyone interested in SIMPLA's expertise.

SIMPLA cities develop harmonised SEAPs and SUMP. Making them greener and smarter. Joint planning maximises synergies, triggers considerable environmental benefits and paves the way to decongestion, increased energy efficiency and better quality of life for citizens.

PLANS

energy and mobility planned together
